## Overview

The **PTD6** motor, coupled with the **DRC 485** receiver (which enable to communicate with major serial protocols for PTZ cameras) represents an interesting alternative if you wish to motorize a camera on a tight budget.

## Technical characteristics

Model name	PTD6
Device Type	PTZ Motor
Rotation angle	350°
Rotation Speed	Pan: 6°/sec., Tilt: 3°/sec.
Power Supply	24V AC
Power Consumption	24 Watts
Op. Temperature	- 25°C ~ 60°C
Load capacity	18 Kg
Dimensions	227 mm (H), 196 mm (D)
Weight	7,5 Kg

## Models

**PTD6**

## Included accessories
